On November 11 we celebrate Veteran's Day, a national holiday in the United States and a time to recognize and pray for all of the brave men and women, past and present, who answered the call to military service. This holiday came into being in 1919, at the end of World War I, when President Woodrow Wilson wanted a national holiday to honor all the men and women who fought in "the war to end all wars." In 1954 after another World War and the Korean War, Congress changed the holiday to honor all of our veterans.

We ask God to bless all veterans, living and dead, and to protect those brave men and women who are currently serving our country in the military. Thank you for your service.
